## **Humane Letters Seminars**

The most unique component of the Eagle Ridge Academy high school program is the Humane Letters Seminars. In these seminars, which are based on the Great Books Program, students conduct in-depth studies on some of the greatest, unabridged works of Western Civilization. In those courses, primary source documents are used in place of textbooks. The seminars combine a classical framework and the use of Socratic Seminars to draw out each student's inner curiosity and passion. Following seminars, students read and analyze texts individually, then speak and write about the citing evidence for their positions. The Humane Letters Seminars are deep, thought-provoking courses of study. Students earn an English credit and a History credit for successful completion of each year-long seminar.
